

1546-UNIVERSAL HANDLE

The 1546 Universal Handle is the contractor's choice when it comes to the handling of kerb stones and blocks. The simple catch mechanism enables the easy pick up and laying of kerbs in to the required position.

Used with a drop chain this unit can carry up to 500Kg!

Item Code	SWL (Kg)	Effective Jaw Width (mm)	Weight (kg)
1546.1	500	50-570	29
